From

The Rev. Comr.

No. D 3 of 24-25 dated 18. 8. 24

Recommends sanction to the proposal of the Dy Comr Kolar Dt. to start 4 Tank maintenance works in the Some of the Talukas of his Dt. for providing labour to the Panchamas Mercy.

The Dy Comr states that the Scarcity conditions in his Dt. are bad & indicate the necessity of starting Some relief works. As the estimate of the T. or. works proposed is not furnished the liability of Govt cannot be made out. A similar requisition from the Dy Comr Tumkur Dt for starting Some relief works has been issued by Standing Orders. In view of the recent orders that all the Relief operations are to be closed by the end of 15th Aug. 24. it is a point for orders whether the orders on the file relating to the Relief measures of the Tumkur Dt may be annulled or approximate estimate

No. D.3 of 24-25.

Office of the Revenue Commissioner in Mysore,
Bangalore. the 18th August 1924.

From

K. Chandy, Esquire, B.A.,

Revenue Commissioner in Mysore.

K.V. Ananataraman, Esquire, B.A.,

Secretary to the Government of

His Highness the Maharaja of Mysore,

Revenue Department, B a n g a l o r e.

Sir,

In continuation of this office letter No. D.3 of 24-25 dated 16th August 1924, I have the honour to forward herewith copy of letter No. D.9 of 23-24 dated 11th August 1924 from the Deputy Commissioner, Kolar District stating that work has to be provided for the Panchamas of a few villages of Srinivasapur, Bagepalli, Gudibanda (Sub) and Goribidnur Taluks: that the Amildars have been asked to start Village Improvement or Taluk Board or Panchayet Works for the works; and that he has also asked the Executive Engineer to have estimates ready for the maintenance works of the tanks noted in the margin. The Deputy Commissioner requests that sanction of Government may be obtained for them so that works might be started, whenever the situation imperatively demands.

Maintenance work of
1. Yedarur tank in Srinivasapur Taluk;
2. Dillur, Puligal and Venkatapur tanks in Bagepalli Talur;
3. Someswara in Gudibanda Sub Taluk;
4. Hudugur Doddakere in Goribidnur Taluk. (This tank work has already been sanctioned by Government on 14-2-24; but fresh sanction has been applied for.)

In the circumstance, I request that Government may be

pleased

pleased to sanction the Deputy Commissioner's proposal.

I have the honour to be,

Sir,

Your most obedient servant,

K Chandy

Revenue Commissioner.

.RP.

Copy of letter No. D.9 of 23-24 dated 11th August 1924 from the Deputy Commissioner, Kolar District, to the Revenue Commissioner in Mysore, Bangalore.

Though there has been some rain for the past few weeks in the several taluks of the District it has not been quite general of adequate ~~kkak~~ and there are a few villages in the Taluks of Srinivasapur, Bagepalli, Gudibanda and Goribidnur where work is wanted for the Panchamas. I have asked the Amildars to -- start Village Improvement, or Taluk Board or Panchayet works for the present as I was anxious not to commit Government to the starting of large tank maintenance works which might afterwards become unnecessary: but the holding back of the rains is causing anxiety and I have asked the Executive Engineer to have estimates ready for the marginally noted tank maintenance works so that they might be started whenever the situation imperatively demands the step. I have therefore the honour to request that you will be so good as to obtain the immediate sanction of Government to the works mentioned above. They will be undertaken only when absolutely necessary and if the rains continue to hold off. I believe you have seen two or the tracts, namely, Yeldur Hobli in Srinivaspur Taluk and Hudugur and surrounding villages in Giribidnur Taluk. I have seen all the areas and I have only recently visited the tract under reference in Bagepalli Taluk, namely, in Chelur Hobli. The area in Gudibanda Sub Taluk has within the past few days been visited by the Sub Division Officer under my instructions.

Maintenance work of
1. Yedarur tank in Srinivasapur Taluk.
2. Billur, Puligal and Venkatapur tanks in Bagepalli taluk.
* 3. Hudugur Doddakere in Giribidnur Tq.
4. Someswara in Gudibanda Sub Taluk.
* This has been sanctioned in G.O.No.518-21/Dis.5-23-17 dated 14-2-24 but fresh sanction applied for in view of G.O.No: 13-22/Dis. dated 8-7-1924.

10/8/24

For Revenue Commissioner.

Copy of letter No. D.9 of 23-24 dated 16th August 1924 from the Deputy Commissioner, Kolar District, to the Revenue Commissioner in Mysore, Bangalore.

I have the honour to forward herewith for information, a copy of Bowringpet Amildar's report No.36 dated the 12th instant and to state that as reported by the Amildar owing to inadequate rainfall in parts of Kyasamballi and Bethamangala hoblis the standing crops are withering and that even if the expected rains do not disappoint us the yield of same, sajje, haraka and til may not be more than four annas and that therefore the poor people cannot pull through till the harvesting season. I personally visited the Bethamangala tract on the 11th instant and I agree in the Amildar's estimate of the situation. It is therefore absolutely necessary to start some tank maintenance works in the said localities to provide labour to people in need of it. I therefore request that, in view of Government order dated 8th July 1924, sanctioned to start the two following works may kindly be obtained and communicated early. These works will be undertaken only when absolutely necessary and when rains are not propitious.

1. Maintenance work to Kallikuppa Nagalakere.-
   Assessment Rs.483-8-0 estimated cost Rs.800/-.

2. Maintenance work to Sundarapalya Dodkere.-
   Assessment Rs.656-2-0 Estimated cost Rs.900/-.

For Revenue Commissioner.

VRR.

P.T.O.

Report No. Dis. Jo.26 dated 12-8-1924 from the Amildar, Bowringpet, to the Deputy Commissioner, Kolar District, K o l a r.

I beg to invite attention to my report No.12 Dis. dated 9th July 1924, submitting a programme of tank maintenance and restoration works, which would have to be started in case of failure of rains and to state that in consequence of inadequate rainfall, in parts of Kyasamballi and Bethamangala Hoblies i.e., in the Northern portions of the Taluk bordering on Mulbagal Taluk, Saiie, Horaka, Kellu and other dry crops are withering for want of rains and that even if there be rains, they may not yield more than a four anna crops Ragi which had come up well is also withering but its condition -- will be improved by expected rains. "Sambli Hula post" has done much mischief and damaged the crops. Poor people had high hopes of Horaka, Saiie etc., and they would have managed to pull through till ragi was harvested. They are sadly disappointed. It is -- therefore absolutely necessary that some works should be started in these localities to provide labour to poor people

2. Of the several works proposed by me in the above programme I hope that the following two works may be kindly arranged to be started at a very early date.

Tank maintenance works.-

			A	G	Atchakat.
Bethamangala Hobli, Mangalkote,	1. Kallikuppa Major No.97	✗ ✗	82	0	189-8-0 Estimated cost Rs800
Kyasamballi Hobli.	2. Sundaranalva Doddakere Major No.210	✗ ✗ ✗	117	8	656-2-0 Estimated cost Rs900

The first work will be useful to the villagers of Chinnanpalli, Maddinayakanahalli, Timmasandra, Natha, Kallikuppa, Kogilahalli, Taddahalli, Golhalli, Nallur &c., which are within a radius of two miles.

The 2nd work will be useful to the villagers of Sundaranalva, Tallapalli, Kodigenalli, Venkasandra, Kallavi, Hosahalli, Gannerahalli which are within a radis of two miles.

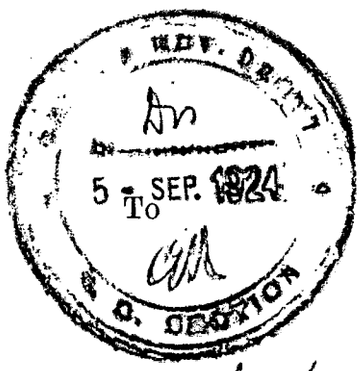
Bangalore, ~~4th September 1924.~~

FROM

K. CHANDY ESQ., B.A.,
Revenue Commissioner in Mysore.



TO

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Revenue *Department.*

SIR

I have the honour to forward herewith copy of letter dated 2nd September 1924 from the Deputy Commissioner, Kolar District submitting a special report called for by Government on seasonal conditions at the end of August 1924. It is seen therefrom that on account of recent rainfall the situation has considerably improved in the Taluks of Kolar, Chintamani, Mulbagal Srinivasapur, Malur, Chikballapur and Gudibanda (Sub) while in groups of villages of about 20 to 30 in the Taluks of Goribidnur, Bowringpet Bagepalli and Sidlaghatta the conditions are not satisfactory as the rains did not extend to those regions. The dry crops in about 10 villages of Chilkalnerpu Hobli of Sidlaghatta Taluk are reported to have practically gone though wet crops have somehow survived. The Panchamas in these villages are without employment and a panchayat work started in Burudagunte has been attracting 40 to 50 coolies. The dry crops have suffered in the Kyasamballi Hobli of the Bowringpet Taluk to a certain extent and a village Improvement work has been started to provide labour for the Panchamas and in about 12 to 15 villages of Hosur and Darinayakanapalya Hoblis, Goribidnur Taluk, the later rains are reported to have again failed. Village Improvement works have been started to provide labour for the Panchamas in about 30 villages of Chelur Hobli and neighbourhood of Bagepalli Taluk.

Srinivasapur and Chintamani Taluks have on the other hand considerably improved. The Deputy Commissioner states that distress is now localised and not general but that adverse conditions of last year necessitate the taking up of the marginally noted works.

In these circumstances I request that Government may be pleased to sanction the works recommended by the Deputy Commissioner.

I have the honour to be,

Sir,

Your most obedient servant,

Assistant Commissioner,
For Revenue Commissioner,
(Absent from station)

M.A.N.

Letter dated 2nd September 1924 from the Deputy Commissioner, Kolar District to the Revenue Commissioner in Mysore.

=====

With reference to your Memo No.D.3/24-25 dated the 26th August 1924 asking for a special report on the season conditions at the end of August 24, I have the honour to state that the recent rains have greatly improved the situation and that the Taluks of Kolar, Mulbagal, Srinivasapur, Chintamani, Malur, Chikkaballapur and Gudibanda may be said to be beyond the pale of anxiety provided the further rains are all right.

2. In the taluks of Bowringpet, Goribidnur Bagepalli and Sidlaghatta there are groups of villages about 10 to 30 which are not in a satisfactory condition as somehow the rains did not extend to these regions. In about ten villages of Chilkalnerpu hobli of the Sidlaghatta taluk the dry crops are practically gone though wet crops have somehow survived and the Panchamas are without employment. A Panchayet work is going on in Burudagunte which is attracting 40 to 45 coolies.

3. Similarly in the Kyasamballi hobli of the Bowringpet taluk the dry crops have suffered though not to the same extent as in the villages of the Sidlaghatta taluk referred to above and a village Improvement work has been started to provide employment for the Panchamas. In about 12 or 15 villages in the Hosur and Darinayakanapalya Hoblies of the Goribidnur Taluk areas which suffered severely last year the later rains have again failed and a village work is in progress.

3. In about 30 villages in the Chelur hobli and neighbourhood of Bagepalli taluk the Panchamas were asking for labour though the crops were not bad and some village Improvement works have been started. The anxiety that existed in the Srinivasapur and Chintamani taluks has disappeared.

4. For the foregoing reasons I would recommend sanction to the starting of the following tank maintenance works:==

1. Thimmasani tank:== to provide labour for the Panchamas of Chilkalnerpu hobli, Sidlaghatta Tk.

This is the only work available and there is some controversy as to whether the bund of this tank was brought up to standard level by the Public Works Department but this may be settled later. The work may be started soon.

2. Sundarapalya and Kallikuppa Nagalakere tanks in the Bowringpet Taluk

3. Maintenance work of Hudgur Dodkere in Darinayakanapalya Hobli and the feeder channel work of abodi tank in Hosur hobli for which ryots have paid a contribution of Rs.1,200/-.

4. The maintenance work of Billur Puligal and Venkatapur tanks in the Bagepalli Taluk.

5. These works may be stopped as soon as the conditions improve and the attendance falls off.

6. The distress is localised and not general and ordinarily relief works should not be necessary to meet such cases. But the adverse conditions of last year necessitate the taking up of these works. I request that you will kindly obtain the sanction of Government thereto.

7. I have sent a copy of this letter to the Executive Engineer in order that he may have the plans and estimates ready.

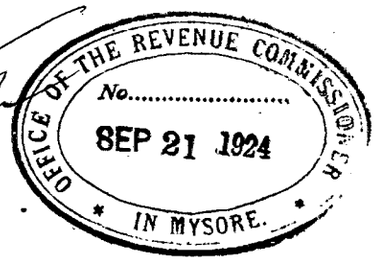
OFFICE OF THE DEPUTY COMMISSIONER,
KOLAR DISTRICT.
Camp Goribidnur
Dated ~~Kolar~~, *the* 20th Sep *1924*.

FROM

S. HIRIANNAIYA, ESQ., M.A., B.L.,
DEPUTY COMMISSIONER, KOLAR DISTRICT.



TO

K.C h a n d y, Esquire, B.A.,
Revenue Commissioner in Mysore,
B a n g a l o r e.

SIR,

For the last three days I am making a detailed inspection of this taluk and visiting some of the worst affected villages. Broadly speaking the crops have suffered in varying degrees in three hoblies, namely, Hosur, Kasaba and Vadinayakanapalya. As usual some villages are, good, others bad and others again indifferent but there is one outstanding feature which has manifested itself in the situation this year, namely, that the people have very much less staying power than they had last year, the reason being that this is the 3rd bad year in succession. I went to Maddagiri for a couple of hours yesterday, visited some villages, interviewed officers including the Sub Division Officer and the Executive Engineer and the people and though I might say that the conditions of this taluk are not so bad as in Maddagiri yet it is only a question of time and if local works had not been undertaken they would have been well-nigh on the road to that condition. About a dozen villages may come under this category. We have started Gokuntes and road works where ever necessary, have been giving gratuitous relief out of the remnant of the Red Cross Fund which you had kindly sent us some time ago and by tapping private charity. I am starting a local Famine Fund here by public subscription from the well-to-do persons before I leave for Bagepalli. Government may rest assured that we shall not allow conditions to deteriorate but the following facilities are urgently necessary (1) A sum of Rs.10,000/- may, for the present, be placed at the disposal of the Executive Engineer for tank maintenance,

restoration and feeder works for this district to be undertaken for giving employment to the people. (2) A sum of Rs.5,000/- for Village Road works may be sanctioned as in many places tank works are not either - available or have been taken up and worked out last year. (3) A sum of Rs.500/- for gratuitous relief including the sum of Rs.200/- already asked for may be sanctioned (4) the Village Improvement and Takavi grants already asked for(after deducting grants since made), namely, Rs.4,000/- and Rs.20,000/- respectively.

2. It is extraordinary how during the past four or five weeks conditions have changed in this taluk. This taluk had shared the improvement - - brought about by the copious Mungar rains along with others and the - - attendance on relief works had practically disappeared; but the drought in August affected the crops and it is extraordinary how people have been thrown out of employment in such a short time and have been asking for - relief. It is therefore necessary that permission should be granted to me to start in consultation with the Executive Engineer tank maintenance - works in anticipation of formal sanction, if necessary, with the condition - - attached that before the expenditure exceeds one year's assessment the necessary sanction shall have been obtained. I would also ask respectfully that instructions may issue to the Executive Engineer to attend to - - requisitions connected with the distress with the utmost expedition.

3. The rains of the day before yesterday have done a lot of good and in some affected villages a four-anna crop may at least be realised, provided of course, the future rains are all right. I am going to Bagepalli - from here but I expect the conditions there have also deteriorated. The facilities which I have asked for will keep us going for the whole district for at least three weeks, if not more and I shall submit a further report at the end of my inspections. In the meanwhile I request very - - early and favourable orders on this reference. I might perhaps add that the distress is for the present confined as reported in previous letters to portions of Goribidnur and Bagepalli taluks and to a less extent of Chikkaballapur and Sidlaghatta taluks.

4. A list of tank maintenance works which may be started subject to the condition that the expenditure shall not exceed one year's assessment before

formal sanction is obtained, is attached and permission may kindly be accorded to start these works immediately, that is when ever the - - Executive Engineer is requested to do so by us.

I have the honour to be,

sir,

your most obedient servant,

Deputy Commissioner,
Kolar District.

MVS.

P.S. The whole of Kolar Subdivision, the major portion of Bowringpet Taluk and of Chickballapur, Sidlaghatta & Gudibanda Taluks are all irrigated by
